

ProtonPACS from Radsource featuring

IntelViewer[™]

High Performance Image Viewing

ProtonPACS featuring IntelViewer enables fast and efficient image viewing anywhere, anytime, and for any case. Designed to provide robust, high performance for both onsite and remote viewing, IntelViewer boosts productivity with its fast load times, intuitive interface, and advanced features.

IntelViewer delivers robust and powerful image display for all imaging modalities, using web-enabled smart and flexible technology that quickly delivers current and prior images to the desktop. Highly customizable and extendable, ProtonPACS can meet the needs of any practice environment, large or small.

PROTONPACS FEATURING INTELEVIEWER OFFERS

- › Flexible user experience, customizable to each user's preferences.
- › Maximum workflow efficiency through speed and usability.
- › Enhanced clinical impact via the advanced toolset.
- › Industry-leading customer service and support provided by the ProtonPACS in-house team of experts.

By combining award-winning PACS software with all of the necessary PACS hardware, guaranteed secure archiving, proactive support, and our always-on hybrid architecture, ProtonPACS delivers a fully functional and flexible PACS solution in a cost effective fee per study model. The service is fully managed and maintained by the ProtonPACS team, greatly reducing your IT needs, and is uniquely engineered for maximum speed and the elimination of downtime. ProtonPACS is fully regulatory compliant and seamlessly communicates with any practice management system or EMR.

With no required upfront capital investment or ongoing fees for licensing, updates or maintenance, contact us to find out how you can start saving today!
