

Reliability. Affordability. Functionality. All from one PACS.

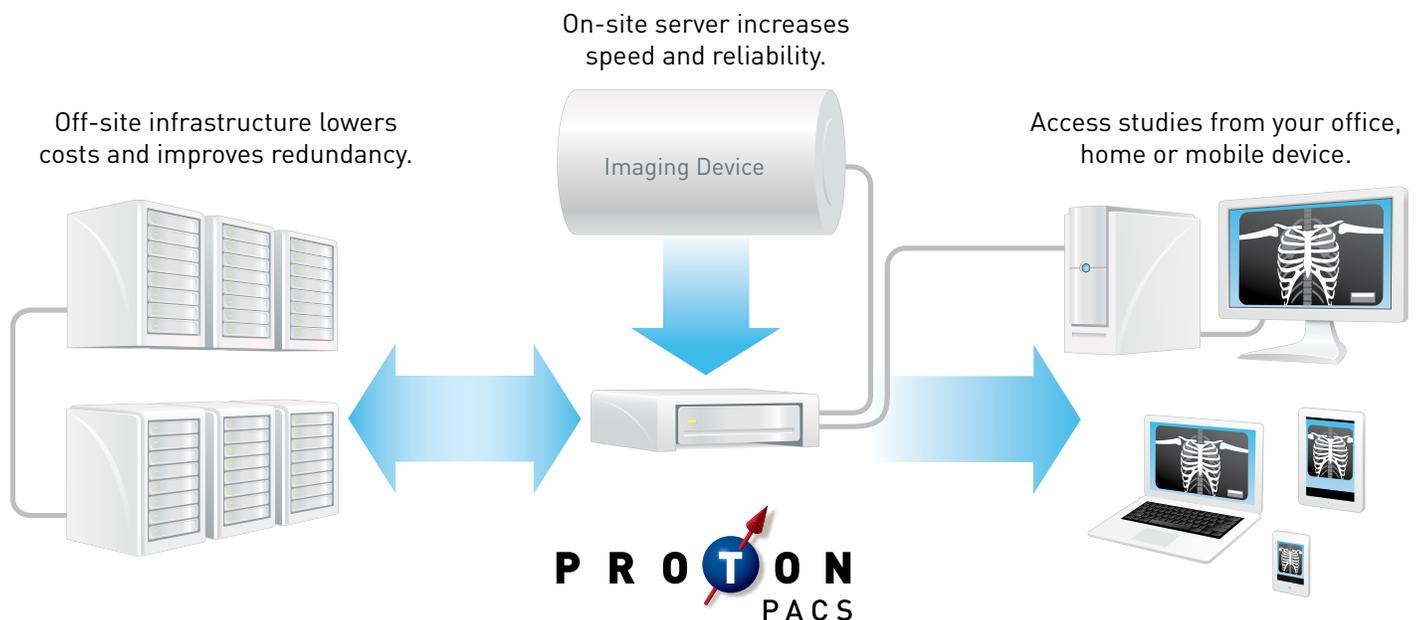

ProtonPACS from Radsource:
**PREMIUM PERFORMANCE
WITHOUT FINANCIAL RISK**

Change the way you think about PACS

Whether you're ready to make the leap from film to digital imaging, or you're shopping for a new PACS because of inadequate performance and high costs, you're ready for ProtonPACS.

ProtonPACS is the perfect Picture Archiving and Communication System for any practice because it represents the best of both worlds. Our unique hybrid approach gives you the speed and reliability that comes with an on-site server coupled with the off-site infrastructure and operational expertise of Radsource, a trusted name in imaging for over ten years.

This solution is uniquely engineered to virtually eliminate the downtime and inefficiencies that can plague other PACS.

ProtonPACS is easy to use with a full range of advanced features and tools. The intuitive design reduces training time.

Superior performance, savings, and reliability versus other PACS

Industry-leading reliability and redundancy from ProtonPACS eliminate the downtime that can plague other PACS.

Access your studies with blazing speed from anywhere — the clinic, your hospital, your home, or on the road. And the intuitive user interface means that you will be fully functional from day one.

With ProtonPACS, unlike with traditional PACS, you are never hit with costs for equipment, upgrades, maintenance or licensing. Instead, we charge a simple per-study fee and provide the hardware and software free of charge.

And there are no long-term contracts. There is no risk to you — we simply rely on the quality and service of Radsource to keep you as a loyal customer.
