

WHAT MAKES PROTONPACS THE RIGHT CHOICE FOR YOUR IMAGING CENTER?

The importance of technology in the provision of more efficient and higher quality healthcare can no longer be ignored. In today's connected environment, imaging centers are tasked with increasing the interoperability of their IT systems while also optimizing workflow efficiencies and customer service standards.

PROTONPACS CAN HELP BUILD YOUR BUSINESS

Value

Lower your total cost of ownership! ProtonPACS requires no capital investment and operates on a fee-per-study model that includes the hardware, unlimited software, data storage and support.

Communication

ProtonPACS facilitates real-time communication with your customers and provides access to images and reports anytime, anywhere.

Interoperability

ProtonPACS seamlessly integrates with any information system to eliminate duplicate data entry and streamline delivery of your results to referring physicians.

For Owners/Managers

- Decreased costs and increased efficiencies bolster your bottom line
- Easily scalable for new modalities and locations, with no additional setup or licensing fees
- Automated workflow from end to end

For Radiologists

- Fully-featured unified reading platform
- Web-enabled smart & flexible technology
- Customizable worklist
- Customizable advanced toolsets
- Embedded speech recognition

For Referring Physicians

- Secure and efficient delivery of images and reports
- Fast report turnaround
- Ability to access images from within your EMR
- View images from any device
